Behind the bars, there is a pair of dirty bloody striped pajamas. During World War II, people who wore pajamas only had one result, being slaughtered by Nazi guards or toxic gas. Discriminated by the cruel society, most Jewish were just waiting for death behind the bar of the concentration camp, just like the striped pajamas. They didn't know when and how they would die, but had a sense of oppression all the time, which was pathetically tragic.

Unlike a typical story, this book focuses on an anti-war theme. Not explicitly depicting the bloody massacre, it tells an innocent yet cruel story through the eyes of German boy, who is the son of Nazi commandant. The unexpected ending is also particularly shocking. It releases the built-up tension. While reading the book, I found myself sympathizing more with the German boy's tragic fate since it is unexpected. However, I overlook the tragedy of the Jewish boy. The slaughter of Jewish is also a senseless tragedy. When the family of the German cries for him, there is no one left to cry for the Jewish boy.
